## **Netvox IOT Platform Setup Guide**

In this document, we will guide you to install Netvox IOT Platform step by step.

## Use NETVOX APP to control and monitor zigbee devices

1. Install NETVOX APP

APP file access path: \Demo\Starter Kit.apk

Note: Please turn on the unknown resource in security setting while installing apk in smartphone or touch pad.

## 2. Use NETVOX APP for the first time

Connect the mobile device to Internet (WIFI / 3G / 4G) and then launch Netvox app.

3. Setup IEEE address on APP

Enter IEEE address (1) of the netvox zigbee dongle (either scan or enter IEEE address). Click "Existing account" (2) to go into the login page.
