

R900 / N900 Series

Surface Temperature Measurement

R900 Series : LoRaWAN

N900 Series : NB-IoT

NEW IN THE UPGRADE

-  Support 7 Different Mounting Types
-  NFC App For Easy Configuration
-  Large Memory for 10000 Packets of Data
-  ER18505 for Longer Battery Lifetime
-  Connected 4G Camera for IoT Visualization
-  Optional Transmission Protocols

R900A02O1

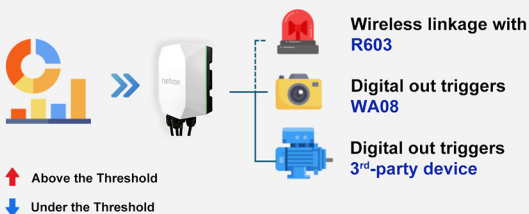

Wireless Temperature Sensor - Digital Sensor with 1 x Digital Output

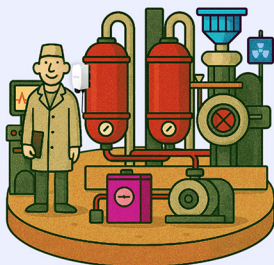

Temperature

-40° C to 125 ° C

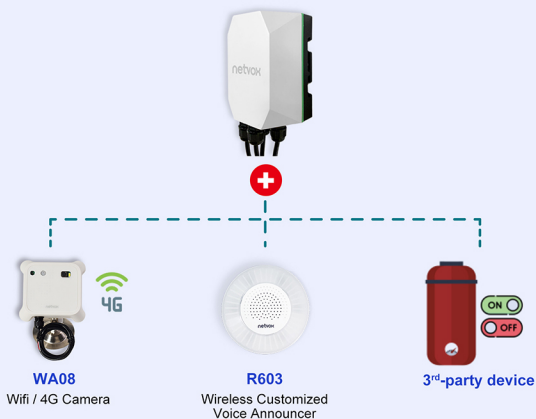

Threshold Alarm

See, Hear and Link

When the R900A0201 detects temperature exceeding or falling below their thresholds...

See

Capture and send image of objects.

Hear

Sound custom alarm to notify people.

Linkage

Get 3rd-party device connected through digital out.
