

Company Profile

Netvox Technology Co., Ltd. is a company that focuses on developing technology wireless communication products. We have been an ISO-9001 certified manufacturer since 1998. The company had launched the main product, **LoRaWAN** (Long Range Wide Area Network) equipment and over 400 relevant products, providing diverse product choices.

We have been dedicating ourselves to the development and application of multiple fields such as smart factory, smart home, smart agriculture, smart toilet, environment monitoring, electricity monitoring, temperature monitoring, and water leakage monitoring.

Netvox will consistently provide high-quality and reliable wireless communication equipment and solutions for every customer.

100% Self-Developed and Manufactured

Netvox's organization includes R&D department, engineering department, manufacturing department, quality control department, sales department, and management department, which help the company operate successfully and provide perfect service.

From research, development, manufacture, quality control, and sales of the products, Netvox has been conducting comprehensive management and seeking new solutions to satisfy our customers.

Solution

Smart Factory

- 4-20mA
- 0-5V/0-10V/0-24V ADC
- RS485/RS232
- Dry Contact
- Activity Event Counter/Timer
- Three-Axis Accelerometer
- Noise
- Pulse Counter
- Tilt Angle

Smart Home

- Reed Switch
- Glass Break
- Vibration
- Illumination
- Occupancy
- Temperature and Humidity

Smart Agriculture

- Soil EC
- Soil Temperature
- Soil Moisture
- Soil NPK
- Wind speed / Wind direction
- Valve Controller
- PH
- Turbidity

Smart Toilet

- Toilet Paper Detection
- Hand Sanitizer Detection
- Toilet Tank Detection
- Water Leak Detection

Environmental Monitoring

- CO / CO2
- PM2.5 / PM10
- VOC / TVOC
- NO / NO2
- O3
- Air Pressure
- SO2
- H2S

Electricity Monitoring

- 1-phase AC Current Meter
- 3-phase AC Current Meter
- 1P / 1PNL Circuit Breaker
- 3P / 3PNL Circuit Breaker
- Power Plug
- Power Socket-US type

Temperatur
Höchst-/ Tiefstwert

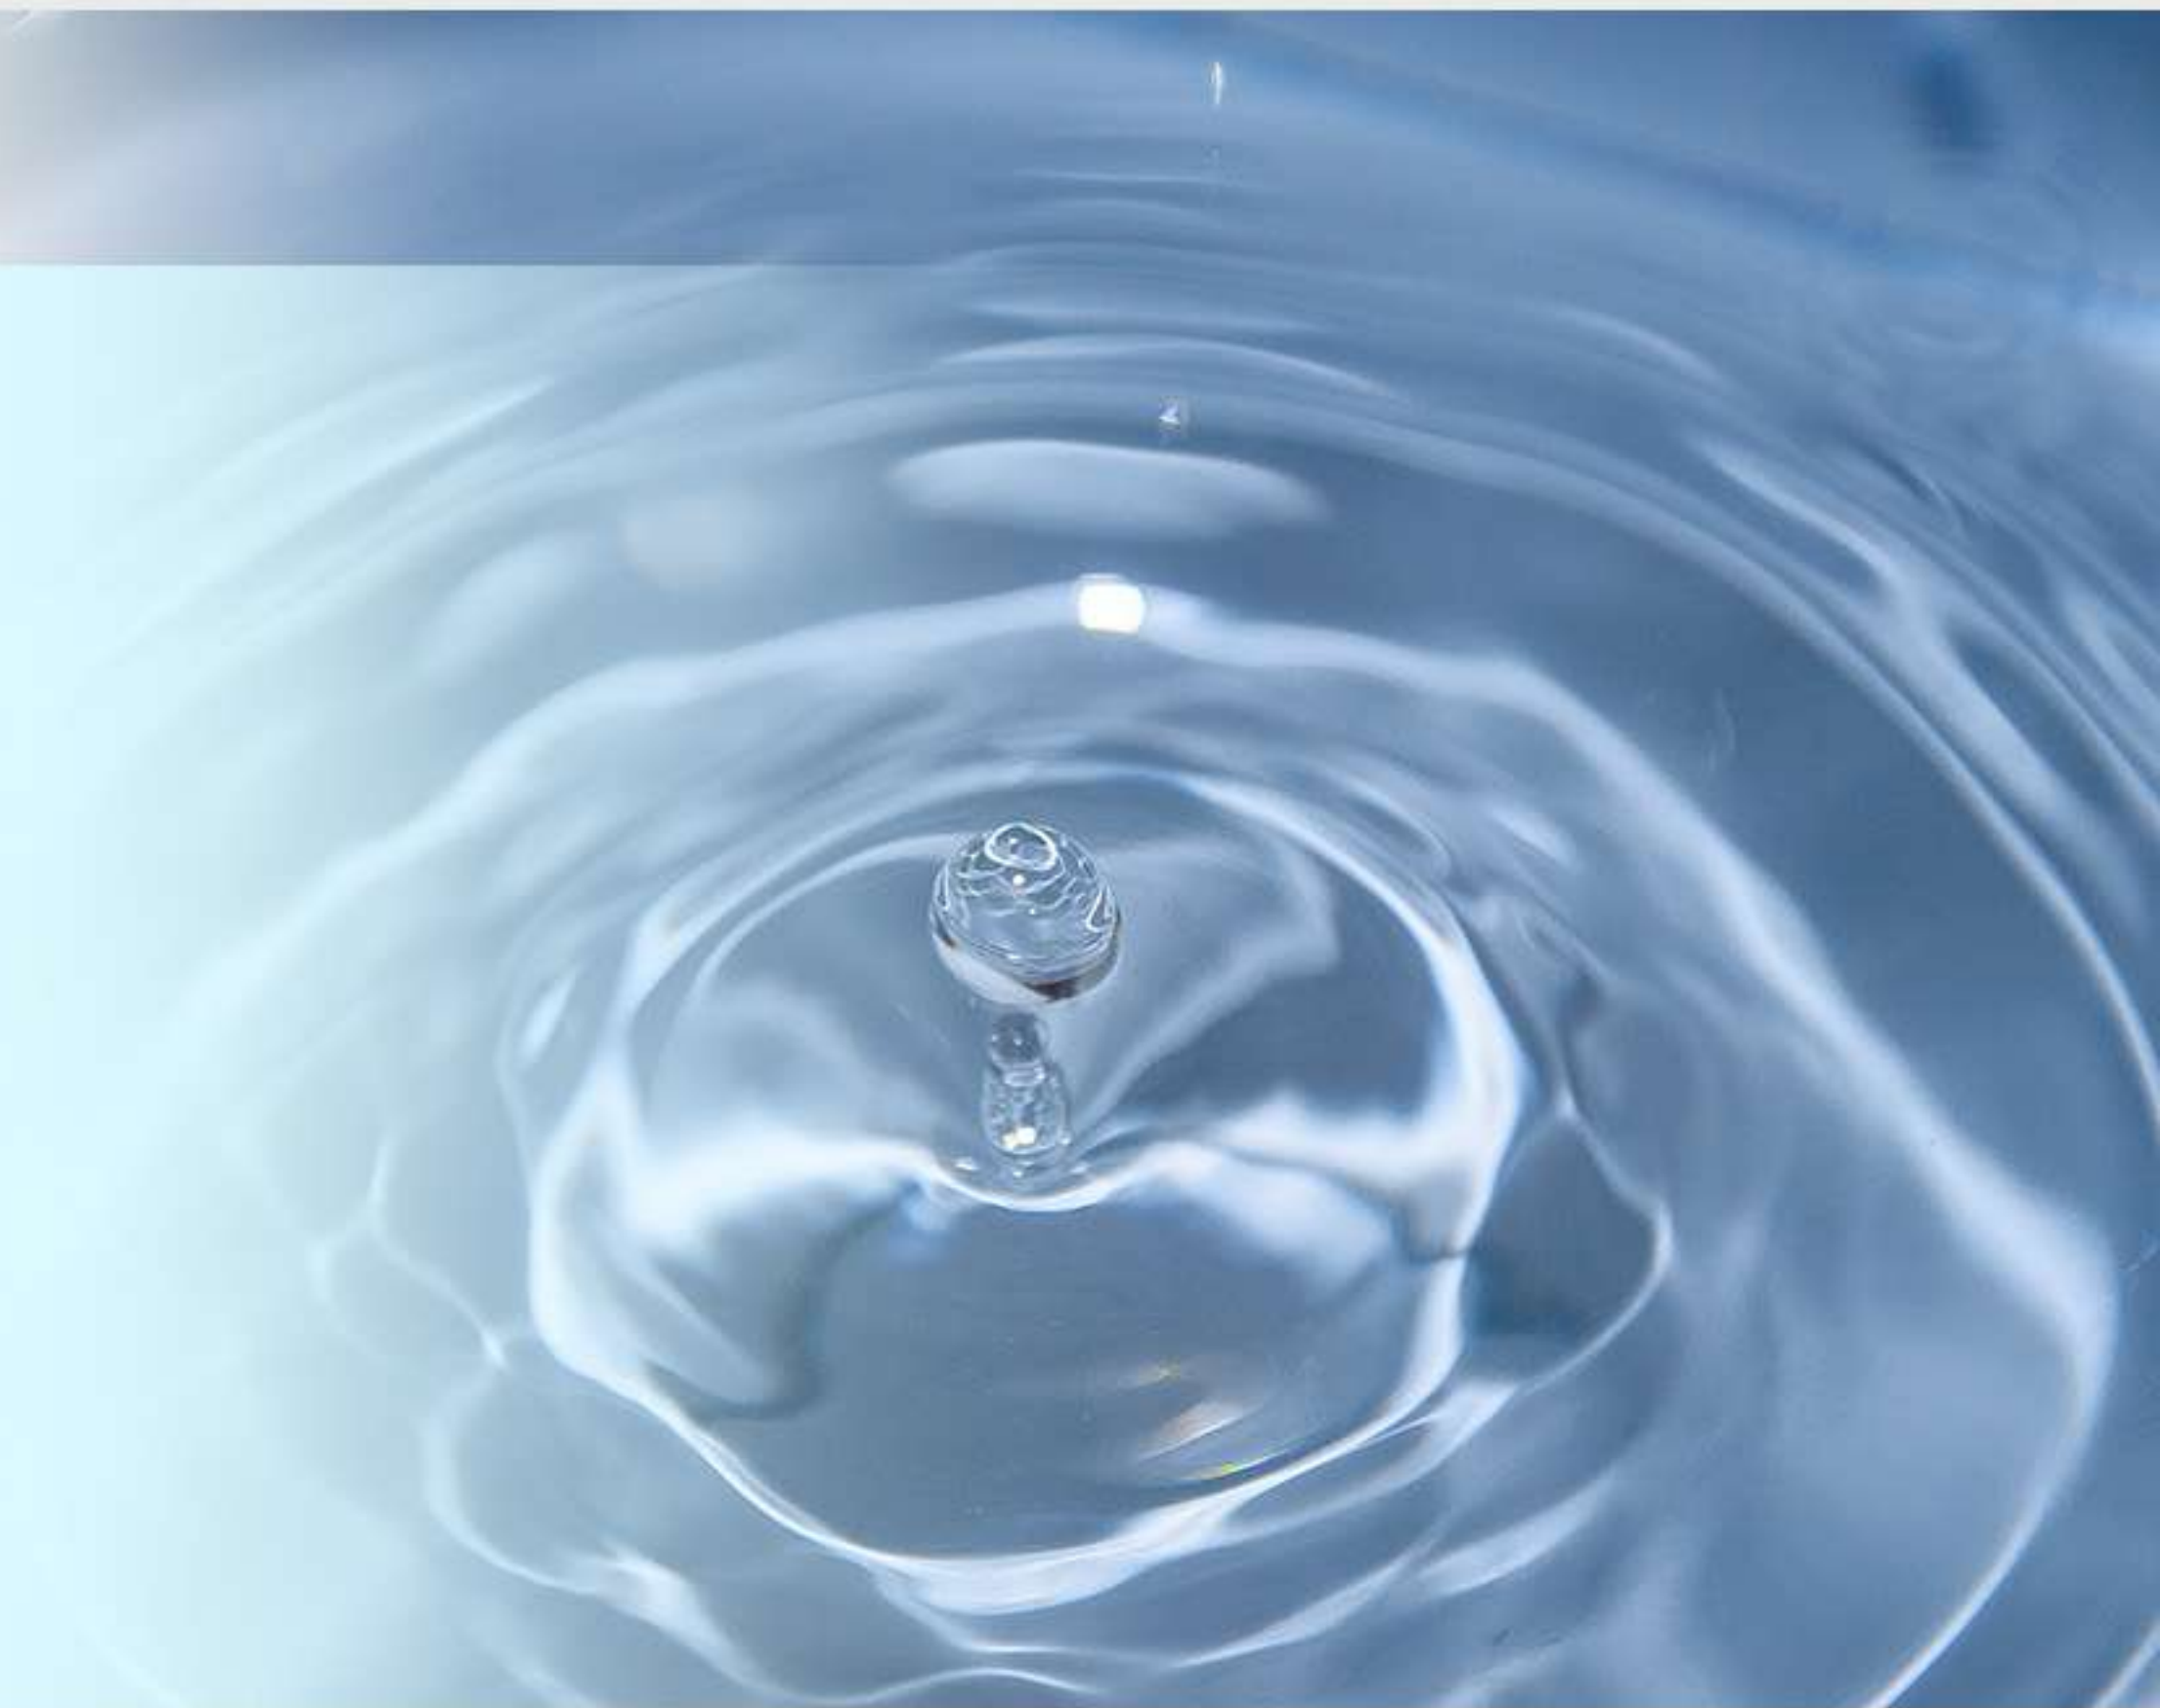

+25.6°C
+20°C

Temperature Monitoring

- Ambient Temperature and Humidity
- Digital Temperature
- Platinum RTD (PT1000)
- Thermocouple
- NTC Thermistor

Water Leakage Monitoring

- Electrode Water Leakage
- Positioning Leakage Rope
- Non-positioning Water Leakage Rope

Others

- Occupancy
- Ultrasonic Level
- Push Button
- Capacitive Proximity
- IR Blaster
- Infrared Proximity Sensor
- Seat
